HTML, CSS, Bootstrap, JavaScript, Tailwind CSS, React, Node.js, Express.js, MongoDB, RESTful APIs, GitHub.

PROJECTS

Free Breathing, eCommerce

DEC 2025 - MAR 2025

A full-stack web app allows users to browse all available books, search by author name & filter by genre. Users can request books, add or remove books from their favorite & carts. The app enables users to place book orders free of cost.

Tasque, Task Management

FEB 2025 - MAR 2025

A full-stack Task management app that helps users create, view, update & delete tasks. It allows users to keep track of their daily goals or activities, mark them as completed & remove them once done.

Forecastly

FEB 2025 - FEB 2025

Forecastly is a simple & responsive weather app that shows the current weather for any city using real-time weather data from an API. Users can search weather by city name. Displays temperature, humidity & wind speed.

ArtWork

DEC 2024 - JAN 2025

An ArtWork web app showcases continent-wise art events in galleries, featuring artists' work. Users can filter events by continent. Additionally they can search based on the gallery name & continent. Clicking on an event leads to detailed information, including attached artist artworks.
